

Critical Information Summary – IPSTAR nbn™ Satellite

Information About the Service

nbn™ Satellite is a satellite broadband service via nbn™ network. nbn™ Satellite service is designed to provide fast and reliable internet service to homes and businesses in regional and remote areas across Australia and territories.

Service Requirement

The service is available to eligible customers who are indicated by nbn™, you can find nbn™ Satellite service coverage areas through nbn™ website.

<http://www.nbnco.com.au/connect-home-or-business/information-for-home/satellite.html>

Equipment Requirements

nbn™ Satellite equipment will be provided by nbn™ and installed at your premises on your preferred date and time specified in the application form by nbn™ installer. nbn™ retains ownership of the equipment and will provide you a service and maintenance.

Minimum Term

The minimum term of the service is thirty days (30 days). Alternatively, you can sign up the contract up to 24 months.

Each Plan Features

When your service is activated, followings are features that come with the service.

- **Up to 25/5 Mbps of speed.** Speed may vary due to some factors such as location, weather and technical limitations.
- **Up to 3 email addresses**
- **Free usage meter accessibility**
- **No excess data usage charge**

Information About Pricing

Installation Charge

There is no charge for standard installation.

Maximum Monthly Charge

There will be no extra charge if you have exceeded your plan data allowance.

Early Termination Charge

Your contract term, set-up and termination fee may vary subject to your choice of contract length. 1-month means minimum contract term is 30 days, no set up fee and no termination fee. An early termination fee applies to a 12-month and 24-month contract if you want to cancel IPSTAR service before your contract end date. 12-month means 12 month term, no set up fee and \$150 early termination fee. 24-month means 24 month term, no set up fee and \$250 early termination fee.

Monthly Plan Charge
